

9 ENDURA HUMMVEE

£45.99

Nominally a product for our off-road brethren, the Hummvees are perfect for touring, mountain biking and leisure use. When you're on the bike you can use the six-panel liner for extra padding. There are half-a-dozen pockets for every occasion, an adjustable belt and they're made from nylon which has proved to be both durable and fast drying, exactly what you want when touring when you can't control the environment or washing conditions. Also available in ¾-length and a Lite version – for warmer conditions – made from lighter weight nylon.
