

ENDURA SINGLETRACK II

£26.99 www.endura.co.uk

The Singletrack II is a no frills, reasonably priced glove with a nice fit. Although they lack the knuckle protection you get from something like the Flank, they have a well padded palm and the neoprene ensures a comfortable ride. As with neoprene mitts they are a touch on the warm side, but we did like the elastic pull-on cuff and the large sweat wipe.
