

## Endura FS260 Pro Lycra £19.99

With no zip at the back, these Lycra slip-ons from Endura are very lightweight. They're an ideal springtime cover, and did a great job keeping the road grime away from our new white shoes. There's no waterproofing, however, so we wouldn't recommend them for rainy days, but the FS260-Pros have a couple of great assets. The reflectivity on the front

and rear is good for dark days, and the fit is excellent. The 100 per cent Lycra design makes them very snug, and despite the lack of a zip, they're a cinch to get on.

A simple,  
inexpensive and  
practical overshoe
