## ENDURA BACK PACK 25L £59.99

---

**SPECIFICATION** VOLUME 25L CLOSURE Zip  
**PROTECTION** Rain cover

**E**ndura's entry into the world of luggage looks promising, with its 25 litre backpack holding a decent range of features. The back panel uses six foam blocks to hold the pack away from your back, and is relatively well vented. Padded shoulder straps and a wide waist strap provide stability as well as comfort. The main section has an internal sleeve, while the smaller organiser pocket has mesh sleeves and a soft-lined zipped pocket. A stow-away fluorescent rain cover is a useful addition, especially as it has a little window to show the pack's integrated rear light. Our only criticism is that changing batteries in the light is quite a faff.
