

5 ENDURA ROAD II £24.99

endurasport.com

Despite the low price the Road II is fully loaded with kevlar-stitched reinforced soles, plenty of reflective details and even a slick patch on the inside to stop crank rub wearing a hole in them. The rear zip gets a sealing flap behind it and is secured with a velcro tab to keep it snug. The neoprene is particularly supple for a great fit, and is a really good balance of warmth and weather protection, making them a versatile all rounder at a great price.
