

Endura Pro Printed £64.99

The fit of this Pro Printed Jersey from Endura is a slick race cut, with the silicone hem and sleeve grippers creating smooth lines and reducing flapping. Both kept the jersey tight without it digging in. Three well-sized pockets, alongside a smaller zippy pocket, gave ample room for bars and spares. Lycra shoulders and arms kept the fit snug, but still gave ample movement, while the 3D mesh inserts and fast-wicking coolback fabric on the body kept us cool. Even when sweating lots, we didn't get wet, with no visible sweat patches.

Reasonably priced jersey offering a flattering fit, as well as keeping us cool
