

## ENDURA PRO SL PRIMALOFT GILET

★★★★★ £99.99

A packable core-warmer that integrates with Endura's Pro SL Shell. Its PrimaLoft Gold insulation guarantees constant heat, while a tall collar, stretch sides and elasticated hem ensure a snug fit. All-round windproofing means it works as an outer garment too, with one zipped and two angled, open rear pockets, plus reflective elements. The rear panels are interspersed with laser cut holes for ventilation.
