

6 ENDURA PRO SL BIBLONG

£139.99 endurasport.com

Clever tailoring has made the entire front of these tights from one piece of fleecy, windproof fabric, while more breathable material is used on the back of the knees and hamstrings to help temperature regulation. Reflective material at the calves creates a strobe effect in the glare of headlights, while the tight, elasticated ankle cuffs fit comfortably beneath overshoes. There is a short zip fly to facilitate comfort breaks.
