# Endura Wms BaaBaa baselayer

**£39.99** Endura

[www.endurasport.com](http://www.endurasport.com)

**A GOOD BASELAYER** should be a staple of every mountain biker's wardrobe. Just like the men's BaaBaa, the women's version is made from merino wool and is light, warm, itch free and wicks sweat extremely well. It dries quickly too, and can be worn for two or three rides before it starts to smell. The cut is well shaped for female curves, with a longer hem at the rear to ensure no draughts get in when you're hunched over the bike. The sleeves are sufficiently long and the flatlock seams ensure comfort and prevent chafing. A great value garment to keep you warm and dry on colder days. **RACHAEL**
