

Endura Wms SingleTrack Lite gloves

£24.99 Endura

www.endurasport.com

THESE LIGHTWEIGHT AND breathable women's gloves are some of the coolest (in terms of temperature) we've ever used. They're a pull-on design, with a short stretch cuff that removes any unnecessary bulk from the wrist. There's no padding on the suedette palm, which maximises grip on the bar and feedback through the hands.

Unusually for Endura the SingleTrack Lites size up slightly small. Ours haven't stretched with use, so we'd try for size before buying. The price may seem high for the amount of material you actually receive but they'll be worth the pounds when they keep your sweaty mitts cool this summer! **RACHAEL**
