## Endura MT500 Spray £69.99

**SO GOOD...** These versatile baggies have a waterproof rear and crotch, to protect your vitals from cold spray, while breathable and stretchy front panels give a comfier, less clammy ride than regular waterproof shorts. They're well suited to riding wet trails on dry days. The fit was true to size, and the belt system and Velcro hems enabled easy, wide ranging adjustment. We were impressed by their all-day comfort and build quality, especially considering the price.

**NO GOOD...** They're a bit short in the leg, which exposed the tops of our knee pads while pedalling.
