

ENDURA HELIUM THREE-QUARTERS

★★★★★ £59.99

If you have to ride in the rain without mudguards, these will keep your posterior and seat pad dry. Constructed with seam-taped 2.5-layer waterproof fabric that's robust enough to shrug off road dirt abrasion, and still fit close enough not to flap, the Heliums don't restrict your pedalling. The elastic waistband keeps them in place, they roll up to fit in a pocket, and in three hours of hard riding, we remained dry, clean, comfortable and didn't overheat.
