

Endura MT500 £99.99

SO GOOD Stretchy inserts on the front of the thighs and across the back help these shorts move with your body without the need for any excess fabric. Elastic sections at the sides and silicone gripper at the rear work well to hold the waistband in place. The reinforced seat and water-resistant zips on the pockets underline the quality of the finish.

NO GOOD The legs aren't the longest and you'll need to pick the right size because there's no waist adjustment (although it's elasticated and there are loops for a belt), but otherwise there's not much to dislike, especially at this price.
