## ENDURA FS260-PRO ADRENALINE RACE CAPE £59.99

---

**SPECIFICATION** WEIGHT 127g  
**COLOUR** Translucent white

**T**his has a conventional race cape look, clear enough to view a race number or club jersey through, and with a long dropped tail. A stretchy rear panel keeps the lightly padded collar snug, and the cuffs are easy to pull over gloved hands. Reflective trim around the wrist, hem and body is useful, but there are no pockets. All seams are externally taped, and the unventilated rubbery feeling nylon seems most effective when working hard, because it isn't very insulating.
