

## ENDURA WMS HELIUM

Taller riders will love the cut of this great-looking, nicely featured jacket. There's plenty of length in both torso and arms, and while the cut is athletic and neat, it's pretty true to size. More breathable panels underarm and a large vent at the upper back help maintain a comfortable temperature and prevent too much sweating. The zip is asymmetrical, which can help when you're doing it up while riding, and it keeps the zip away from the chin. Plenty of reflective accents contribute to safety.

Sizes: XS-L

How much? £89.99
