

ENDURA STEALTH 2

£169.99

SPECIFICATION SIZES S, M, L, XL, XXL
COLOURS FOUR CHOICES

A roomy and quite bulky top that combines a softshell and waterproof in one for a jacket that'll do the job when it's cold and wet. There's room for layering underneath, but you won't need much as it's one of the warmest jackets here. It balances the waterproofing with decent breathability, but there are pit zips and very long side vents to further aid airflow. Your neck and wrists are well protected from the elements, there are plenty of pockets and even a rubberised rear LED loop. A little more reflective detailing might have improved what is an otherwise impressively featured top.
