

**GOOD IN  
THE RAIN**

**ENDURA STEALTH 2 £170** More info: [endura.co.uk](http://endura.co.uk)

The Stealth 2's taped seams ensure absolute waterproofing and on-bike comfort, while biggish vents allow cooling air to pass through when needed. It is among the warmest of the jackets here, so you can go without a long-sleeved jersey in favour of a baselayer (more on those next month). And stretch fabric is employed to allow the greatest possible freedom of movement. Two rear pockets are both waterproofed with taped zips, while more zips at the cuffs ensure you get a weatherproof seal over your gloves. Reflective panels throughout assist with visibility, while the brushed fabric collar is cosy on the neck.

**Verdict:** *Waterproof, but rear pockets fiddly on the go.* **Rating: 8/10**
