

# ENDURA WOMEN'S PRO SL £164.99

A good waterproof jacket is always a worthwhile investment, particularly if you're not going to let a little inclement weather stop you riding. Endura sponsors the Cervélo Bigla pro women's team, who provide feedback and help develop the products' fit and performance. It really shows in the Pro SL.

Constructed from a lightweight ExoShell40 three-layer waterproof fabric that's fully seam sealed, it will keep wet weather firmly at bay while remaining breathable enough to let sweat wick away quickly. Our size L weighed 205g.

A zip at the back allows you to access your rear jersey pockets, plus an external pocket for stowing a gel. There's also reflective trim on the hem and sleeves for increased visibility on the roads.

## HIGHS

Great waterproofing, breathability and fit

## LOWS

Not the lightest or most compact

**WE SAY**  
Pro team feedback  
shows in this  
weatherproof  
jacket
