

Endura Equipe Race £49.99

Since becoming the official clothing supplier to the Movistar Pro Team, the Scottish brand has been going from strength to strength in the road market, evident here with the Equipe race gilet.

Available in either white or black, this gilet is easy to coordinate with existing kit.

Furthermore, the white is slightly transparent, meaning kit is visible underneath.

The Equipe, which Endura claims is shower-proof, held up well in changeable weather, offering a good degree of wind protection on the chest. The mesh back panel provided ventilation and ensured I didn't turn into a human Eden Project — a downfall of many similar garments.

Owing to the lightness of the fabric used, there was a very small degree of flapping when descending at speed, but this was minimal and did not detract from the product. Overall, the fit was very good, with minimal bunching on the chest and the 'storm flap' provided good posterior protection. As a point of reference, I am 68kg and 6ft 1in.
