

ENDURA URBAN MERINO POLO

{ **£50** }

www.endura.co.uk

This is yet another hit from Endura's recently launched Urban range - it's exactly what we look for in a modern urban cycling summer jersey. It combines the best features of wool cycling jerseys (longer tail, plain and close fit arms) and the versatile styling of a classic polo shirt. Discreetly logo'd, it could be Ralph Lauren, but it's Endura and it's right on point. The Super-soft merino wool is luxurious: warm but not hot, cool in the sun, quick to dry after a loser-buys-the-beers race across town, and it resists odour. Everyone else take note - this is how it's done.
